Lakehurst Election Results for Board Vacancies

On Tuesday, May 2, 2006, Lakehurst Water and Sanitation District held an election to fill three of the five Board of Director positions.

Seven candidates filed a self-nominating and acceptance form for three Board vacancies. This was the largest number of candidates to seek election in Lakehurst's history. In order for a candidates name to appear on the ballot he or she must either live or own property within the District. These candidates are as follows; Ms. Jeanne Greenfield, Mr. Jerry Newlander, Ms. Lori Berghorn, Ms. Debra Jones-Lanning, Mr. William D. ("Jake") Schild, Ms. Ellen M. Dattilo, and Ms. Cynthia Griffin. These listed candidates were elected and will serve a four (4) year term of office on the District's Board of Directors: Mr. Jerry Newlander, Mr. William "Jake" Schild, and Ms. Jeanne Greenfield. All three were re-elected to the Board as incumbents.

Mr. Newlander has served on the Board since 1986, while Mr. Schild has served since 1998. Ms. Greenfield was appointed by the Board to fill a vacancy in 2006. All three newly elected Directors have resided in the District for many years and bring a wealth of knowledge and diversity to the Board.

The Board would like to extend its thanks and appreciation to all the aforementioned candidates for taking the time and effort in this election process.

2006 Consumer Confidence Reports Mailed to District Customers

All Lakehurst Water and Sanitation District customers should have already received or will be receiving soon, the Denver Water 2006 Consumer Confidence Report. The United States Environmental Protection Agency (EPA) mandates that all public water systems provide their customers with an annual water quality report or Consumer Confidence Report (CCR). The Lakehurst Water and Sanitation District operates under a contract with Denver Water to provide treated water to District customers. This report contains information regarding water quality regulations, quality of water provided by Denver Water, as well as source water information. If you should have any questions regarding the information on the Consumer Confidence Report or any other water quality questions, please call the District office at (303) 985-7895 or Denver Water at (303) 628-6000.

2006 Summer Water Use Program “Guidelines”

Lakehurst Water and Sanitation District Board of Directors adopted summer water use guidelines and permanent water use restrictions for all outdoor irrigation.

Even though reservoirs have recovered to acceptable levels, Denver Water amended its operating rules to make mandatory and permanent water use restrictions. Lakehurst Water being a contract distributor of Denver Water is obligated to follow and enforce those portions of Denver Water’s 2006 Water Use Program that have been incorporated into Denver’s Operating Rules. Therefore, the District’s Board determined that it was appropriate and necessary to adopt a water use program that mirrors the program adopted by Denver Water.

The water saving guidelines and adopted regulations listed below focus on wise water use while discouraging water waste that can help save you money and still “Keep It Green”. The Board encourages all of its customers to continue wise water use habits and avoid wasting a valuable resource.

Regulations:

1. **No watering with spray irrigation between the hours of 10: 00am and 6: 00pm. during the period from May 1 to September 1.**
2. **Routine watering of turf shall be limited to three days per week, except for establishment of new turf from sod or seed.**

Guidelines:

1. **Adjust sprinkler system programming to suit the needs of each month.**
2. **Turn sprinkler system off when it rains.**
3. **Make repairs to irrigation system in a timely manner.**
4. **Do not apply more water than is absolutely necessary to establish and maintain a healthy landscape.**
5. **Adjust sprinkler heads for their intended use.**
6. **Do not irrigate during high winds. Nobody benefits from water “blowing in the wind”.**

For more information regarding the 2006 Summer Water Use Program and more water saving tips, visit our web site at www.lakehurstwater.org or Denver’s web site at www.denverwater.org.
